ABOUT US

Falcon Advanced Services & Technologies Limited (FAST) is a dynamic organization that aspires to be the first-choice partner for the electrical specialized service industry within the Caribbean region.

We are a micro company comprising of highly motivated individuals with combined diverse experience within the utilities and petrochemical sectors. We provide clients with design and custom-built solutions according to their requirements. In the fields of energy efficiency and renewables we specifically target user processes such as fans, pumps, conveyors, etc. that use electric motors.

We aim to provide an efficient and reliable response to our clients in a manner which adheres to the highest standard of establish safe work practices.

FAST is partnered with ABB as a Value Provider company that is with specialized technical knowledge about the ABB brand products, qualified to advise on its specifications, use and performance, as well as to execute integration equipment.

"The key to success is direct communication with our customers, an extensive sales channel, and support network through forged partnerships with established pioneers in the energy services industry"

OUR VISION

To be the leading Energy Services Company (ESCO) through the provision of sustainable, reliable energy solutions and services for our clients in the Caribbean within the next ten years.

OUR MISSION

Falcon Advanced Services & Technologies Limited aspires to set the course for long-term value creation in the service industry through efficient and reliable response time whilst enhancing the environmental, economic, and social value for our customers.
